

Cyber Risk

Australia

CLYDE & CO

Clyde & Co offers a market leading end-to-end cyber solution, tailored to the needs of your organisation. Developed based on our extensive experience managing over 1,000 cyber incidents, use of innovative technologies and unique approach to the management of cyber risk, we provide organisations across industry sectors with an integrated service to ensure your cyber risk and privacy needs are addressed.

Pre-incident

To boost your cyber resilience, we offer fixed fee packages tailored to your organisation.

- Privacy readiness audit, policy review and impact assessment
- Breach readiness, data mapping and digital risk audits
- Cybersecurity health check
- Development of a risk register
- Review, develop and implement incident response and business continuity policies, plans, procedures and systems
- Third party contract review
- Tabletop training around privacy compliance, cybersecurity and incident response scenarios
- Cybersecurity training for employees

Incident response

Suspect a cyber incident? We're here 24 / 7 / 365 to assist you to manage the incident proactively with loss mitigation front of mind.

- Dedicated 24 hour incident response hotline
- Coordination of incident response and management of specialist third party vendors
- Assurance of regulatory and legal compliance
- Communication with affected individuals, law enforcement, regulatory bodies and the media, as well as briefing your staff

Post-incident

We can help your organisation get back on its feet quickly following an incident.

- Manage and defend any resultant third party claims or regulatory investigations
- Preserve evidence and recover losses against third parties who have caused or contributed to the incident
- Review cause of breach to determine vulnerabilities
- Repair or develop new bespoke systems and processes
- Undertake data purging post contract review
- Provide table top training – lessons learnt from the incident
